### Raw material

#### Ingredients

Alcohol, sugar, aromas

#### Ageing

-

#### Serving temperature

Room temperature or with ice

A liqueur both sweet and fresh at the same time. A base of pure alcohol in which mint aromas are dissolved. The addition of a fair amount of fine honey gives it an extreme softness and enhances its essence even more.

Its characteristic taste, intense, sweet and balsamic, makes it the perfect ingredient for the cocktails preparation, as well as an excellent after-meal.

Mint and honey liqueur with a fresh and delicate taste, with the extracts of aromatic herbs conferring an intense and balsamic flavour.

A pleasant and unique end of meal if enjoyed with ice. The unmistakable and unique blend makes it perfect as ingredient for the preparation of cocktails and long drinks too.
