40% vol.

## Raw material

### Ingredients

Hydrated alcohol, juniper distillate (*Juniperus communis L.*), extracts from local aromatic plants

### Ageing

-

## Refinement

-

## Serving temperature

Room temperature

*Friulian Angel* is produced with an intense juniper alcoholate and *botanicals* carefully selected, which perfectly blend with pure alcohol. The fruity characteristic is due to the essential oils of citrus fruits. The pleasant spicy note is instead provided by angelica with the addition of cinnamon and cloves. The result is a crystal clear gin, result of a unique recipe among its kind for style and aromatic notes on the palate. The balance of the many components and its overall delicacy makes it particularly suitable for mixing.

*Friulian Angel* is a product dedicated to bartenders and mixology enthusiasts: its extraordinary aroma and unique finesse make it particularly appreciated. A soft blend, which perfectly matches with other ingredients, in a fashionable handy bottle that guarantees a firm grip. The bartender recommends: drink it pure or mixed in your favourite cocktail. Minimum order quantity: 60 bottles.
