Serving temperature

Room temperature or with ice

Sweet and intense, obtained from selected raw materials that give it a unique and elegant aroma. The main fragrance comes from refined essential oils of sweet and bitter orange, enhanced by alcohol and a balanced sugar content. To be tasted cold, it is ideal for the mixing of cocktails or in combination with Champagne and / or Prosecco.

Liqueur rich in intense and full-flavored orange notes. A mellow mix of sweet and bitter, wisely mixed, to be conquered from. Appealing if tasted smooth, perfect with ice, surprising as ingredient for your cocktails.
