Raw material

Ingredients

Alcohol, sugar, extracts of aromatic local plants

Ageing

–

Serving temperature

Room temperature or with ice

Obtained from the slow maceration of wisely selected raw materials that give it a unique and full-bodied aroma.

Cirasa is a liqueur with an outstanding, unique fineness, characterized also by the presence of sour cherry juice. Delicious almond flavours complement its aromatic profile.

Thanks to the low alcohol content, its flavour is characterised by an elegant balance and also a pleasant persistence.

Taste it cold, *Cirasa* is the perfect ingredient in fruity cocktails or mixed with Champagne and/or Prosecco.

The amber highlights and the dark ruby red denote the intense aromatic notes of *Cirasa*, the liqueur warm on the palate with a rich and inimitable taste. Straight or with ice for a pleasant and unique end-of-meal.
