**Raw material**

It contains **milk** and **diary**.

**Ageing**

-

**Serving temperature**

Room temperature or with ice

A cream is a liqueur obtained from an alcoholic base supplemented with cream.

The cream is prepared carefully to ensure the maximum velvet effect, and then added to pure alcohol.

The flavouring of the liquor lend it a flavour of candy mou, caramel and light toasting.

The alcohol content (17°) brings out the aromas of milk that well marries the other flavours and odours present.

Creamy, velvety, low-alcoholic and sweet enough. The right combination of ingredients makes *DOMBAY Classic* a brilliant hazelnut cream and a characteristic toffee perfume.

Try it smooth or with ice, ideal for enjoying a good coffee or mixed in your favourite cocktail.

The perfect mix to suit your taste.
